SSCI: Earl Eisenhower, Minority Staff
Director

3. Eisenhower agreed that something needed to be done about the Freedom of Information Act, and on the subject of unauthorized disclosure of the identities of intelligence personnel. He was not enthusiastic about the idea of including initiatives on these matters as separate titles in the Intelligence Authorization Bill, however.

4. Eisenhower noted that the SSCI would be taking a look at the impact of the Freedom of Information Act on the Intelligence Community in 1979.
